WM. P. SAYWARD-TREASURER.
J. S. WILLIS-SEGRETARY. BANKERS-BANK OF BRITISH NORTH AMERIC

This Company has been formed for the purpose of developing and working several extensive and valuable seams of Anthracite Coal lately discovered in Queen Charlotte Island.

At present this is the only mine of pure An thracite Coal known to exist on the Pacific Coast and from the large and increasing quantity required and shipped to San Francisco and other ports the discovery is one of great importance and value.

ports the discovery is one or great and ports the discovery is one or great and the company have had reserved to them by the Government Twenty Thousand Acres for mining purposes, five thousand of which is secured (at present) by lease at the nominal rent glob per annum, with the additional privilege purchasing 1000 acres at \$1 per acre for a tow-site.

The coal seams, from three to seven feet in thickness, are situated on the South of Graham Island, Queen Charlotte group, about 2000 yards from the shores of a fine Bay and about 400 feet above the level of the sea. the construction of an easy and inexpensive transway about 100 feet projection are all the works the Company will require to enable them to offer coal in the markets.

The engineers of several of the steamers have pronounced it to be of the very best quality; it has also been used by the proprietors of the foundries in the city of Victoria whose reports are sin nexed, and declared by them to be equal if not superior to the best Ponnsylvania Anthraeite Coal

The great advantage of the position of the minr cannot be brought too prominently to the notice of intending Sharcholders, its close proximity to the coast, together with its superior quality readers it of great value; also an easy access for yeasels of any tonnage, a safe and commodious harbor perfectly sheltered and land locked with secure and good anchorace, will enable vessels at all seasons and weather to load at the Company swharf.

all seasons and weather to load at the Company wharf.

There is a large demand for anthracite coal to supply foundries, steamers, &c., .c., in San Fran cisco. Portland, Victoria and other ports, all to which has to be shipped from the Eastern State or from Europe at a great expense, the sellimpire ranging according to quality from \$16 to \$20 in ome markets in others higher; the trad to Panana and along the Pacific coast will be considerably. An extensive trade will also be open with Chinh and Japan. The naval station of England, United States of America, Franca and Russia, must necessarily consume a largequantity.

HOLLOWAY'S PILLS.

Impurities of the Blood.

Impurities of the Blood.

In selecting the most appropriate medicine for a particular ailment, there may be some difficulty unless one can be found to purify, regulate, and improve the quality of the blood. These Pills possess and exert these three qualifications in an extraordinary degree. They enable the stomach to digest any ordinary food, increase the secretory powers of the liver, cleanse and purify the blood, expel all morbid matter, and throw into the circulation the purest elements; for sustaining and repairing the frame.

Weakness and Debility.

How many persons suiter from debility without knowing the causes why they are feeble! In most cases the stomach is the aggressor. Holloway's Pills have long been famed for regulating a disordered stomach, and restoring its healthy digestive tone; they are therefore confidently recommended as a never-failing remedy in all cases where the constitution, from any cause, has become impaired or weakened.

WINES, LIQUORS! Diseases of the Head and Heart.

These formidable disenses are, unfortunately of frequent occurence; for the most part they streep on gradually, but may be prevented by proper precautions. Hollowny's Pills are the urest perservatives against all derangements of he brain and are the speediest correctors of regular circulation. If they be taken without lelay when tingling in the limbs, drowsiness, or iddiness comes on, the effect will be marvelous. And can now guarantee to those who favor then with a call, that nothing but the choicest will be with a call, that nothing but the dispensed.

They are also prepared to supply families and others with first-class Wines and Liquors by the bottle, at REDUCTD PRICES.

"GUB", late of the Brown Jug, being in charge is a guarantee that all who patronize the establishment will receive every attention. THELION BREWERY Females of all Ages and Classes.

The fame of these Pills is partly based upon the beneficial effects they have upon the constitutions of females. From the domestic servant to the percess, universal favour is accorded to them for their invigorating and purifying properties, which render them so safe and invaluable in all disorders peculiar to the sex. Obstructions of every kind, either in young persons entering into womanhoud or approaching the turn of life—the most critical priod—may be radically removed by a recourse to these Pills. Influenza, Diptheria, Bronchitis, Coughs

In our changeable climate, few persons escape without colds, sore throats, influenza, diptheria, or bronchitis, for all of which these famous corrective Pills may be taken with the certainty of effecting a cure. While the Pills are expelling all inpurities from the body generally, Holloway's Omtment should be well rubbed upon the chett and throat; it will penetrate the skin, reduce inflamation, and restore lasting soundness. THE SUPPLIES.

The principal discussion yesterday was or the Common School items. One or two salaries were slightly raised, and several new teachers were voted for districts at present without educational grants. Salt Spring Island got \$575; Metchosin \$500; and Sooke \$500. Of course it will rest with the Board of Education to see that such sums are really demanded by the requirements of these distriots. The Committee were not long in putting into operation the resolution asserting the right on the part of the Assembly to initiate money grants. The resolution passed the House with only one dissentient, Dr. Helmeken, and the Committee of Supply proceeded to carry it into immediate operation, by creating as well as cutting down. The creations, however, to the credit of the Assembly be it said, have all been made in the department of education. The total estimate sent down for the educationa establishment was \$10,440, and the amoun voted was \$12,220, making an increase of \$1780. The work done we give, as previously, in a tabular form :-

The state of the s

By the above it will be seen that the total amount reduced yesterday was \$9,295. If we add this to the reduction of the previous days, we shall have so far a total saving on the Government estimates of \$43.012. This is satisfactory, and we hope the members will carry the same spirit of economising through-out the remaining items. The contingencies and expenses exclusive of establishment demand even a more rigid treatment than that which has been bestowed on the salaries Upwards of fifty thousand dollars are set down for the expenses of the various departments, exclusive of establishments, and the House has really no more knowledge of the actual requirements than the Rajah of Sarawak. This is, as we have previously shown the great financial evil of the country. We may cut down salary after salary; but if the Executive has such an extensive source as these contingencies to fall back upon, net at official may be removed. The only proper way to have the public work done at the least expense to the country is, as was stated yester day in the House, to have it put out for the year at public contract. This should be done before the estimates are sent down to the House. In no other way can the members vote intelligently on the items that are brought before them. As things at present stand, the Assembly has to run the risk crippling some of the departments, rather than vote sums that may possibly be, as they have previously been, misapplied. It is just as easy to do the right thing as the wrong thing-just as easy to have all the wants o the Government for the year laid before the Lower House -not in the figures of Executive fancy, but at the lowest possible cost that public competition can make them. It is not alone as a guide to the House and satisaction to the public that we would urge such a course, but as a means of reducing the public expenditure. it can easily be perceived that if things are given out in their entirety at public contract for the year, the work, or articles, as the case may be, will be supplied infinitely cheaper than they are now when things are given out spasmodically. We want a system that will tell the public and the Assembly at the commencement of each year what the expenses of each department will come to, but this can never be done until everything that can be put out at public competition is obtained by tender at the lowest possible cost.

This bill came up for a third reading.

Mr. Cunningham moved that the bill be referred to a select committee.

Mr. DeCosmos was opposed to such a course. He regarded the opposition to the bill as a piece of chicanery. The Harewood Cempany had expended \$30,000, and if they were not obstructed they would very materially reduce the price of coal—at least \$1 per ton. They had a much better seam of coal than the Vancouver Company. The talk about the ten acree of land was all bosh—as fallacy. There was plenty of land to be had

fallacy. There was plenty of land to be had at Departure Bay. Mr. Duncan said the bill passed last year upon its merits and without the opposition which it now had, and there was no good which it now had, and there was no good reason for this attempt to obstruct it.

Mr. Duncan moved that the sum be \$1000.

Mr. McCurre thought the Government.

M'Clure thought the Government should put all these contingent expenses out at public contract, and hoped the House by at public contract, and hoped the House by and by would pass a resolution to this effect (hear, hear). The present system of putting things out by contract by piecemeal, instead of by the lump was expensive, and the flouse were really unable to form a proper opinion of what the circumstances of the country demanded.

able to have met them with good arguments; be (Dr. Holmcken) however would take a review of the matter, and would give his iews more fully in regard io it.

Mr. M'Clure defied the hon member to

ont to a single instance where offices were proposed to be crased or amalgamated that proper explanations had not been given.

The motion was carried.

[From Monday's Gazette.]
THE CHRISTMAS TREE—This entertainment
passed off most successfully. The Institute
was tastefully decorated by Messrs. Carrall

was tastefully decorated by Messrs. Carrall and Hume, and was filled by a large and respectable audience, the juvenile portion of the auditory evincing intense interest in the tree dressed by Mr Cooper with articles supplied by the ladies. After the distribution of the prizes the vocal and instrumental entertainment came off. The singing of Mr. I. Johns, who has a fine tenor voice, is highly spoken of. Mr. Blake also acquitted himself with credit. In the instrumental department the names of Messrs. Bate, Hindle, Holden, & Parker are favorably mentioned. The

Dr. Helmcken opposed the motion. He thought there was a disposition to prefer persons in this matter.

Mr. DeCosmos said the House had nothing

to do with individuals, it had only to deal with the sums.

Mr. M'Clure would protest against these personal allusions. The duty of the House was to deal with the Estimates regardless of persons. The House had asserted its right to regulate the amount of the salaries of officials, and he for one was disposed to carry the principle out regardless of who filled the offices.

Dr. Trimble said every member from the district should resist the attempt of the city members to abolish this school.

\$1200 for district School was carried by the casting vote of the Chairman. lestroyer, who will probably be brought before His Worship during the week.

PCLICE.—A person named filliard was brought before C. S. Nichol, Esq., J. P., charged by Sergeant Blake with rescuing prisoners from the custody of Indian police at Chemainus. At the request of the accused, who said he could produce witnesses to establish his imprence the case was Ice. to establish his innocence, the case was remanded for a fortnight and bail taken.

The Harron Buors.—We believe the buoys lately placed in the harbor are superior anything of the kind in the colonies. They show above the water prominently and are easily distinguishable at a considerable distance off. We are informed the Harbormaster has instructed Mr. John Sabiston, his deput, to have the lest of the number. master has instructed Mr. John Sabiston, his deputy, to have the last of the number required put to position during this week.

ON THE WAYS.—The schooner Premier is now being coppered at Messrs. Bolton & Cook's Ship-yard.

Mr. DeCosmos moved that the Clerk of Works be Secretary to the Court of Revision for real estate and trades' licenses.

Dr. Helmeken—It can not be done.

Mr. DeCosmos would ask if the House was going to be soared like children by the mysterious warning of the hon. Speaker's hand; the House had resolved upon its course, and if it was wrong why did not the hon. Speaker inform them, instead of trying to awe them like children.

Dr. Helmeken—It only if the party who have constituted themselves a Ministry had prepared their scheme, and presented it in a complete form, the minority might have been able to have met them with good arguments; be (Dr. Helmeken) however would take a review of the matter, and would give his international transport of the matter, and would give his international transports.

Holloway's Ointment and Pills—Jaundice Disordered Liver. A good free flow of bile is aboutely necessary for digestion; when this serion is interrupted or deprayed, disease immediately and the serious control of the c tion is interrupted or depraved, disease immediately sots in, and sallowness or jaundice marks the cause to be in the liver. This important organ, so liable to disorder, can always be regulated by Holloway's Ontment and Pills. The former, rubbed on the right side, over the region of the liver, upon which it exercises the most salutary influence, without harassing the stomach or the bowles—a matter frequently of vital importance—confers on this remedy an advantage over every other form of medicine in the pharmacopoia: when assisted by the Pills, every disease is speedily subjected and effectually banished

HOLLOWAY'S OINTMENT AND PILLS-Thes potent remedies constitute a materia mediea in themselves, for there is no l'ternal or external disorder cont.ollable by met...line for which the one or the other of them is not a positive remedy—eruptions, tum'rs, scrofula, scurry, cancer, asthma, rheumatism, gout, and dropsy entirely subside and disappear under the action of these joint nuclicines; and in cases of indigestion, sick headache, bille, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results imaginable. The student of Nature knows how simple are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature. he simplicity of Nature

F. Madnel Lane, Now Jark. HOLLOWAY'S PILLS AND CINTMENT.—Inflernza, Colds.—In diseases of the throat and ches "Holloway's Pills and Onthern.—Influence, Colds.—In disease of the throat and chrat, a prevalent in this country, nothing so speedily relieved or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whatever the condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, grade ally restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

Holloway's Ointment.—Wounds, Scalds, Burns, and Irritating Sores.—The peculiarly mild, soothing, anti-inflammatory power exerted by this interest strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Ointment, assumes no surry aspect, and never long tortues the little sufferer, whose very cry exites each bystander's compassion and pierces the particular to the scale of the s

Holloway's Ointment and Pills—Palpitation, Shortness of Breath, Dropsy.—This last named disease is often preceded by irregular action of the heart, and difficult respiration which symptoms are always severe, and ever go from bad to worse, unless proper means of cure be resorted to. In Holloway's unrivalled Ointment and Pills' the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the steady application of his noble lointment invariably results in a lasting and satisfactory cure. The two nedicines act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

HOLLOWAY' OINTMENT AND PILLS .- Fists las, Piles, Excoriations, and Strictures, are speedily relieved and ultimately removed by applying this Ointment after fomentation with wa plying this Ointment after fomentation with warm water. Persons suffering from these securges of the human frame should arrest their progress at once, for it is both insidious and rapid. Fistulas, if long allowed to go on unchecked, not only weaken the nervous system, but dostroy life. The sooner these inestimable remedies are used the more certain is success; yet none should despair, hopeless cases have often yielded, and the sufferer has been saved a painful death. In executations, a few applications of this healing Ointment effect a cure, while the Pills, conjointly used, are especially beneficial in relaxing and removing strictures, whatever their situation or duration.

HOLLOWAY'S CINTMENT AND PILLS, a certain remedy for diseases of the skin-Ringworm, sourry, scrofula, or king's ovil, sore heads, not the most inveterate skin diseases to which the the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are readicated from the wiselen, and a lasting cure is obtained. They are equally efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheuring time, contracted and stiffjoints. These medicine operate mildly and surely. The cure effected by them is not temporary or apparent only but complete and permanent, and how the burn of the complete and permanent.

Holloway's Ointment and Pills.—The family medical chest that is furnished with these powerful remedies needs nothing more. Indigestion, general dibility, liver complaint, eruptions, sores, wounds, ulcors, tumours, &c., are infalibly cured by their use. They purify the blood and give tone and vigour to the whole system. The Ointment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, are cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are effections.

Holloway's Pills —No family should be without these pills. —Thoir long-tried efficacy in removing indigestion, stimulating the bowels, and purifying the blood, have secured them imperishable praise throughout the globe. Whatever the disease, a few doses will relieve the more urgent symptoms and thereafter completely control all disordered action, rouse the torpid liver, empty the engrged spleen, clause the obstructed kidneys, assimilate the food, improve the blood, and thereby confer on the brain and every function healthful vigour, natural activity, and wholesome regularity. Holloway's Ointment and Pills—Acute Rheumatism. In all severe pains in the joints and muscles, after due forsentation with hot water, the soothing action of this Ointment is most re markable; it seems at once to lessen inflammation, easo pain, reduce the swelling, restore the frecirculation, and expel the disease. In these complaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerve, vessels, and guiders, it will arrest disease and again establish healthy action. The aperican and purifying qualities of the Pills have the happiest effect in assisting the Ointment.

Holloway's Pills and Onntment—Stomech and Kidneys. Between these two organs there exists a close and intimate relation which is demonstrated by the wasting which occurs in all diseases afflicting the kidneys. The disordered stomach is often the first index of renal irregularity. Holloway's remedies used at that juncture would cut short many a serious and fatal attack. They act with wonderful efficacy on every organ of secretion, but especially do they regulate the stomach, liver and kidneys, in restoring their healthy functions, and casting out any obstructions or impurities. It is necessary for the ointment to be well rubbed into the small of the back twice daily, when it is absorbed and greatly augments the purifying and salutary influence of the Pills.

Holloways Pills .- General debility, low HOLLOWAY'S PILLS.—General debility, low spirits, and nervous irritation, are the consequences of dyspepsia or indigestion. The Pills soon give tone to the stomach, renovate the digestive powers, purify the blood, and give strength to the whole system. Sluggishness of the body and depression of the mind are succeeded by a cheerful activity of the physical and mental functions. Indigestion is the parent of so many ovils, and is so common, so universal a complaint, that is a great blessing that such a remedy as thi invaluable medicine should have been discovered. No one need long anfer from indigestion with these Pilis at pand.
